**Vineyards:** Sei Querce Vineyards, Fay Ranch block

**Production:** 151 cases

**Barrel information:** Stainless steel and French oak,

## Tasting notes

This wine has opens with aromas of lemon curd and tropical mango. Lime blossom follows, along with some bright grapefruit. On the palate you will find plenty of citrus, along with tropical fruit, and a beautiful hint of almond nougat and honey, thanks to the 13% Semillon that made it into our blend. This wine has a sophisticated texture and depth, but remains zippy and refreshing, which is how we like our Sauvignon Blanc.

**Vintage Notes** - This was our second Sauvignon Blanc vintage, and an exciting wine to make. For 2020 ,we decided to have some fun, and to make use of the exceptional Sauvignon Musqué (a Sauvignon Blanc clone) and Semillon that we grow on the ranch. We also continued our practice of fermenting both in stainless steel and barrel, with the barrelandermented portions all undergoing native fermentations. The result of this blending and combining of fermentation techniques is a sophisticated, layered, yet still fundamentally bright and delicious Sauvignon Blanc.
