RESIDENCE SPIRITS

Residence Spirits have mastered the art of being slow. We take our time to cultivate, select, distill, and age our organic spirits. Embracing each step of the process putting quality before quantity. Through Residence, Mathieu & Tamiko wanted to allow the discovery of classic spirits with an authentic approach.

All the Residence Spirits are slowly distilled in the heart of the Charentes region in traditional Charentais Pot Still using nearly two centuries of craftsmanship expertise; By only selecting French organic ingredients we are aiming to highlight the best French “terroirs” all the while creating a complex and aromatic range of spirits.

Residence means ‘HOME’ – We make our own home. We have tried to reflect through our products our vision where HOME is perceived as a feeling, not a place, or a building, home is where your heart is. Our commitment is to

offer a range of French organic spirits, made from the resources of our terroirs developed by a unique know-how of our local partners.
